Please amend the Specification as follows:

Page 27, line 14

In addition, the user can view the hierarchy against certain ~~types of 15 information~~ types of information that help inform the user about the impact of goals on the business

Page 28, line 14 – line 18

In at least some embodiments, an especially important view managers ~~15~~ can use to manage the hierarchy is a view in which the goals and projects are sorted by domain. This view can be produced for any of a number of levels, e.g., for the entire hierarchy (see Fig. 16) or for a selected goal in isolation ~~(see Fig. 22).~~ (see Fig. 24).
